

DIRECTOR OF CENTRAL INTELLIGENCE

9 May 1986

MEMORANDUM FOR: Director, DCI/DDCI Executive Staff

FROM: Director of Central Intelligence

I need a fresh speech for the American Jewish Council next week. I think I would like to touch on creeping imperialism around the globe as done in the AIPAC speech, probably cut down as I did in the Naples speech. Also, terrorism, particularly in this hemisphere with Managua emerging as the Beirut of the western hemisphere, the kind of things that the public can do about terrorism, something about protecting our intelligence capabilities in terrorism, media responsibility in the light of Libyan and other leaks as touched upon in the American Society of Newspaper Editors speech. Alan is doing a party line statement on the Contra issue, and I would like to deal with that in a general way.

You might see how Paul does in putting that kind of thing together.

William J. Casey
